

Your Safety is Our Priority

Exceeding CDC guidelines

At FHIA we are proud to be able to continue to serve our customers needs. The safety of our customers and our team members is our priority and we are exceeding CDC, government and local guidelines to help you complete your home-improvement project efficiently and safely.

Everyone on our team is wearing PPE through every step of the process.

Our team members in the office, warehouse, in the field or in home are wearing PPE to stay safe.

Cleaning Practices

Our company is taking top measures to ensure all work areas are cleaned regularly with focus on high-touch surfaces.

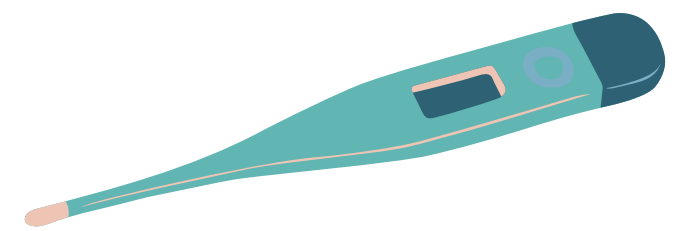

Disinfecting all surfaces.

All products and product samples are cleaned prior to arriving.

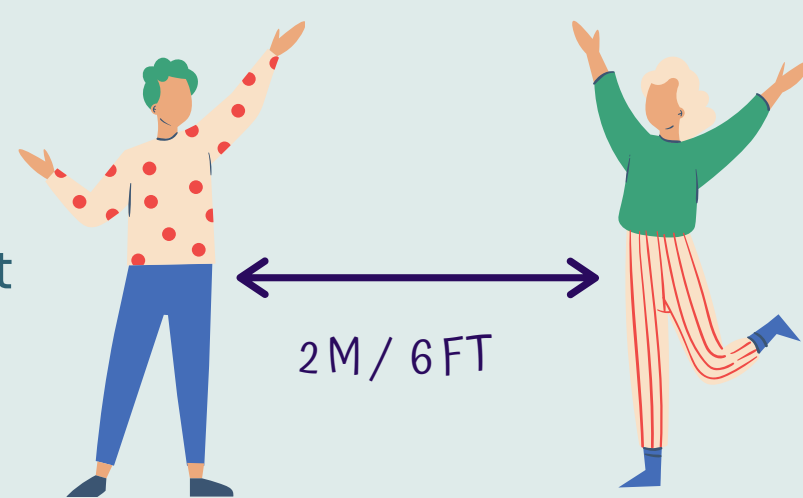

Our team members temperature is taken every morning and prior to every in home consultation.

Check your temperature at least two times a day.

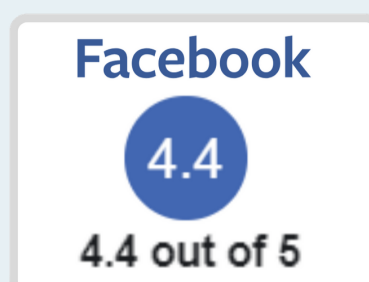

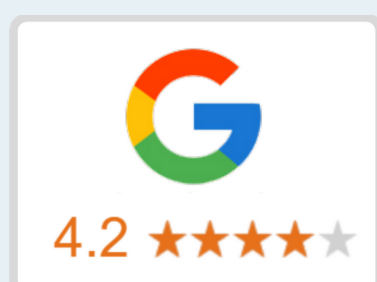

Practice social distancing.

During all interactions our team members maintain at least 2 meters (6 feet) distance from others.

Trusted by your community.

Get started with your home improvement project today with a company that puts your safety first.
